REF **C1039**

**823€\***  
900€\*

- Optic contra-angle
- 4:1 Reduction
- Head size: Ø 8,9 x H 13,4 mm

MODEL **Z45L**  
REF **C1064**

**1.029€\***  
1.113€\*

- Optic titanium contra-angle
- 1:4,2 Increasing
- Two-Way spray Function
- Ceramic ball-bearings

<sup>1)</sup> These promotion prices are also available for nano series instruments (nano95LS, nano25LS, nano15LS). Instruments from nano series are technically identical with Ti-Max Z instruments but significantly shorter, which can bring benefits with regard to ergonomics. PLEASE NOTE: Ti-Max nano series instruments are compatible with the current micromotor range of NSK (NLX nano, NLX plus, M40XS, NBX, X205L, M205LG) and other micromotors available in the market which have an ISO coupling no longer than 23 mm.

• Solid titanium body with DURAGRIP® coating • 26 W torque (Z900L) • Cellular glass optics • Very slim neck for perfect view • Ceramic ball-bearings • 2 years warranty • Clean-Head-System • Quattro-Spray

- Titanium Body & DURAGRIP
- Cellular Glass Optics
- Ceramic Bearing
- Clean Head System
- Push Button Chuck
- Quattro Water Spray
- Quick Stop
- 3X-Power System
- Simple Cartridge Change
- Dual use for regular standard bur / short shank bur

Good accessibility using the mini type + 100° angle head

The 100° angle head allows smoother access to the molar area. The mini head ensures a wide field of vision. The design is based upon the physiological shape of the oral cavity, facilitating low-stress operations when the molar area is accessed.

Head angle allows easy access

Usability has been improved for more effective access without hitting the front teeth, even when grinding in the molar region.

## Varios Combi Pro

**BEST PROMO**

COMPLETE SOLUTION FOR YOUR ORAL HYGIENE WORK FOR BOTH SUPRA- AND SUBGINGIVAL TREATMENTS

2 IN 1  
ULTRASONIC ×  
POWDER JET

Varios Combi Pro basic set contains:

- Control unit
- Ultrasonic scaler kit incl. LED-handpiece
- Supragingival powder kit
- Multi-function foot control
- Tips G4, G8 and G16
- Other accessories

# Oral Hygiene & Periodontology

## iProphy

ERGONOMIC, WIRELESS  
POLISHING MICROMOTOR WITH  
ULTRA-SMALL HEAD

MODEL **iProphy Complete set** with iFX57 head  
REF **Y1500015**

**1.128€\***

As standard option, iProphy is available with iFX57 head for screw-in cups (as shown). As an option, iProphy can be used with Disposable Prophy Angles (DPA). In such a case, we recommend to choose iProphy without head (REF Y150069; 873 €\*) and the PR-F adapter. Screw-in cups and DPA are not included in the standard packages.

Available as options:

MODEL **iFX57**  
(head for screw-in cups)  
REF **C1102001**

**254€\***

MODEL **PR-F**  
(adapter for DPA)  
REF **H209001**

**191€\***

## ORAL HYGIENE/POLISHING HANDPIECE

MODEL **X57** REF **C619**

- Non-optic titanium contra-angle
- 16:1 Reduction
- Ultra-small head for screw-in cups and brushes 2)

MODEL **Surgic Pro2 OPT**

REF **Y1004195**

Complete Set with Light (LED)

**4.330€\***

Operability, safety, wireless extensibility: these are the crucial points where the brand new Surgic Pro2 makes the difference. The NSK surgical micromotor system is an extraordinary innovation, designed to give professionals the best device possible, for the most effective, reliable and comfortable work experience possible. There are so many good reasons to choose Surgic Pro2 – brilliant progress, that lets you move one step ahead.

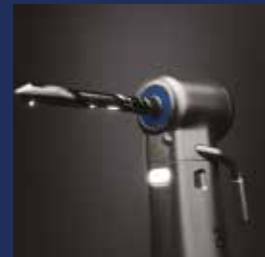

**1** Improved operability thanks to the new, more compact motor and the center of gravity that has been moved closer to the head of the handpiece: more comfort, less stress.

**2** Safe and sensitive display thanks to the easy-clean screen and the smart touch panel, adjusted to respond when surgical gloves and surgical barrier sheets are in use.

**3** Super visibility thanks to the large, back-lit, high-contrast LCD panel. The display can be adjusted with 10 brightness levels, and its intuitive icons allow for smooth operation.

**4** High-resolution color LED light to show blood and gums as if they were naturally lit, offering improved visibility during treatment and generating a minimal amount of heat.

**5** Silence and smoothness thanks to the irrigation pump, which provides a consistent, steady flow while blending seamlessly with the compact design.

**6** Maximum torque precision made possible by the optimized torque calibration system AHC: maximum safety against excess torque during implant setting.

**7** Predictability and control to improve decisions about when to load the implant, especially when a shorter treatment time is given, thanks to the dialogue with Osseo 100+.

**8** Wireless extensibility with multiple devices such as VarioSurg3, Osseo 100+, wireless foot control and iPads, to significantly broaden the scope of implant treatments.

## Osseo 100 / Osseo 100+

### OSSEOINTEGRATION MEASURING DEVICE

Osseo 100 measures implant stability and osseointegration to enhance decisions about when to load the implant. Especially important when using protocols with shorter treatment time and treating higher risk patients. The uncomplicated operation that measures the Implant Stability Quotient (ISQ) with the help of a MultiPeg<sup>4</sup> (available for most implant types) allows the implant loading period to be planned in advance.

<sup>4</sup>MultiPeg not included, sold separately.

MODEL **Osseo 100**  
REF **Y1004175**

**2.055€\***

MODEL **Osseo 100+**  
REF **Y1004176**

Wireless connection  
with Surgic Pro2

**2.360€\***

### 3-STEP PROCEDURE

1. The MultiPeg is attached to the implant. It screws effortlessly into the implant's internal threads (approx. 6-8 Ncm of torque).

2. Just aim for the magnet on top of the MultiPeg. Non-invasive, objective, accurate and repeatable. The peg is excited by magnetic pulses and vibrates due to the stiffness in the contact area between the bone and the implant surface.

3. An ISQ value is generated and shown on the display. This reflects the level of stability on the universal ISQ scale from 1 to 99. The higher the ISQ value, the more stable the implant.

## MultiPeg™

**33€\***

### Reusable MultiPeg™

- For all major implant systems<sup>4)</sup>
- Tissue friendly, durable Titanium
- 20x autoclavable
- Optimal platform fit
- ISQ Standard Calibrated™

<sup>4)</sup>There are different MultiPegs available especially designed for diverse implant systems and models. Find a regularly updated overview on [www.nsk-europe.de](http://www.nsk-europe.de).

## iSD900

### CORDLESS PROSTHETIC SCREW DRIVER WITH TORQUE CALIBRATION SYSTEM (TCS)

- Time-saving through automatic fastening of abutment screws
- Universally applicable for all major implant systems
- Torque-Calibration-System (TCS)
- Individually adjustable torque between 10 and 40 Ncm
- Selectable speeds (15, 20, 25/min)
- Ergonomic On/Off switch lever
- User-friendly LCD display
- Advanced battery & charging technology (induction)
